ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: STERILE HANDLE COVERS

(57) Abstract: A disposable sterile handle cover uses
a flexible bag, a portion of the open side of which is
held snugly by a retaining ring to the inside of a conical
skirt. A first set of spikes include variable length spikes
protruding from the inner wall, to secure the bag against
the handle. A second set of spikes protrude inwardly
from the retaining ring and promote stretching and orderly
application of the to the handle.
